

A pattern activity

What you will need...

- Copies of this sheet to show the children
- Numicon Baseboards
- A supply of Numicon Pegs (plenty of green ones!)
- Copies of the blank Baseboard (page 2 of this activity, one for
- each child)

.....

Coloured crayons/pencils/pens

What to do...

Show children these examples of Christmas trees made from Numicon Pegs on the Baseboard. Then ask the following:

- What shapes and patterns can you see in these examples?
- Can you make any more Christmas trees of you own on the Baseboard?
- Can you use the other coloured pegs to decorate the trees and create more patterns?
- Children can use the blank Baseboard to colour and decorate their favorite tree.
