

## Christmas 2015

- Mathematics and Statistics
- Looking for an alternative for Assessment?
- New items on the website
- Courses in 2016
- Dyscalculia
- Specials
- Gifts that surprise, delight and amuse

### Mathematics and Statistics

A change in teaching! Building success! Inquiry! Rich tasks! Innovative learning! Dyscalculia!

[NUMICON has it all covered!](#)

What a great year this has been. So many students from early childhood right through to secondary schools all over NZ are using Numicon with wonderful success.

More RTLB clusters are using and recommending Numicon.

SENCO's are sharing with each other their successes.

The NIP has started around NZ with tutors and teachers thoroughly enjoying their students' success.

This is a good time to encourage each other. Share your successes with us too on our facebook page- [NumiconNewZealand](#)

### Assessment

No more JAM or ICANZ when you use the accumulative and effective assessment with Numicon. Every Activity Group lists what to 'look and listen for' and links to the Explorer Progress Books; the teacher, students and families can see encouraging results. They are priced cheaper than photocopying them. Download the [Assessing with Numicon](#) Book. See inside an [Explorer Progress](#) book.

### New items on the website

Find these on the new [Supporting Resources](#) page

- Coin spinners
- Securing Foundations organisation for NPC1. All Year 1 teachers will love this!
- Introducing Algebra with Numicon
- Dyscalculia
- And more...

### Courses 2016

There are courses listed for Auckland, Wellington and Christchurch with many more in the pipeline. [Click to see the courses](#)

### Dyscalculia

You will know of a student who is intelligent but struggling with Maths. Check out the information on the website to help them. If you would like some PD and support around this, please contact me.

## Specials

We have not increased the prices on our website even though OUP have increased the prices. We will continue to do this until March 31. Our dollar has not weakened, so that's been a help after a significant drop in the middle of the year.

[Gifts that surprise, delight and amuse www.ynot.nz](http://www.ynot.nz)

Ken and I have started up another website to employ people with intellectual disabilities. We have been shocked to learn that 90% of young people are sitting at home, or not employed in meaningful and satisfying employment.

You will love these gifts for Christmas, birthdays and home decorating. Bags with Pets Rock figures are in the warehouse early January with shipping in the middle of January. Great for picnics and overnight stays.

REMEMBER TO UPDATE YOUR CONTACT DETAILS WITH US!!!

WISHING YOU A RESTFUL HOLIDAY AND JOY WITH YOUR FAMILIES AND FRIENDS!
