

Numicon 4 Photocopy Masters Printing Tips

- Print the copy masters at 110% or more depending on your printer otherwise some of the copy masters are too small, especially the spinner overlays.
- White out the word, 'units' on the place value frames and when dry write 'ones'
- White out the UK currency and replace with NZ currency
- Subscribers to Oxford Owl can download a Word version of most of the PCM's that can be edited.
- Remember that these files are subject to copyright laws.
