

# Mu Torere

1. Set up the game board with four counters or Numicon pegs on one side and four of the other colour on the other side

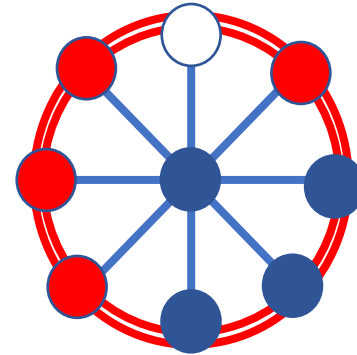

1

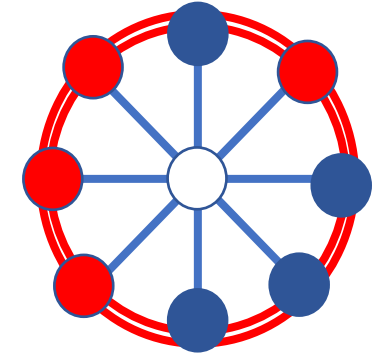

2

2. Blue goes first. Move one piece along one of the lines, either to another point of the star or to the centre.

3. Red moves to the next empty space long one of the lines

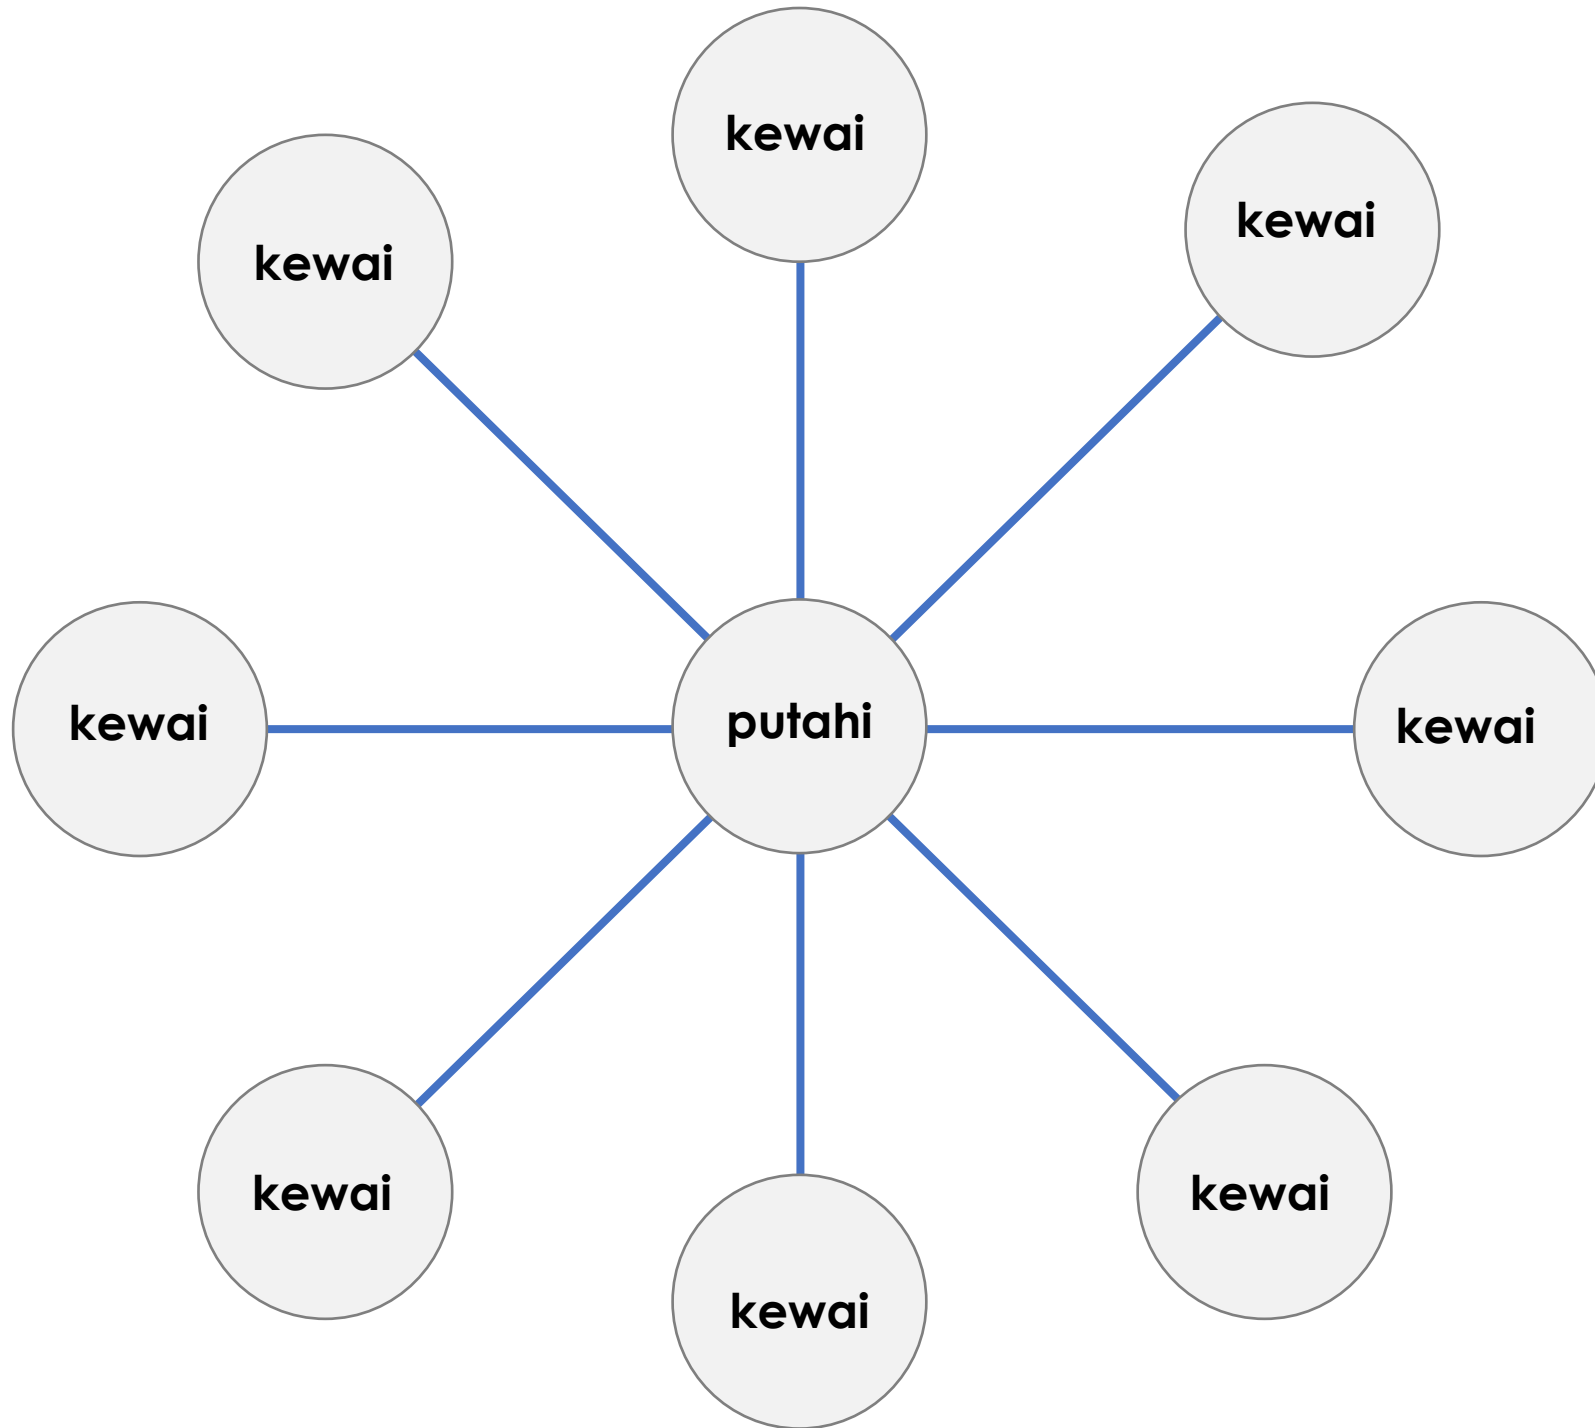

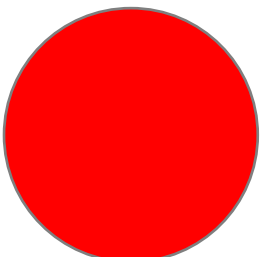

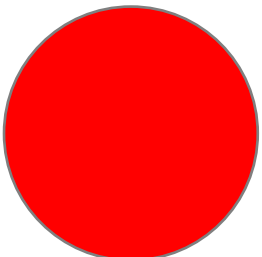

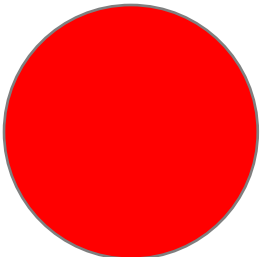

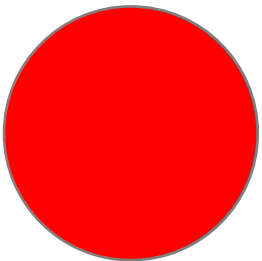

3

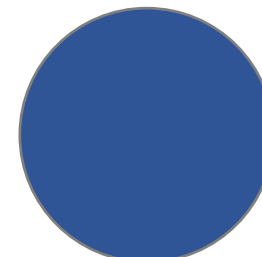

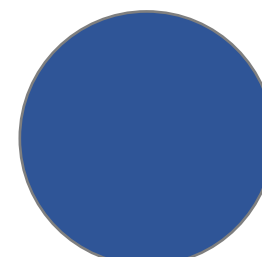

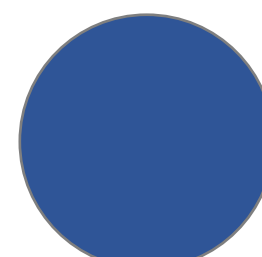

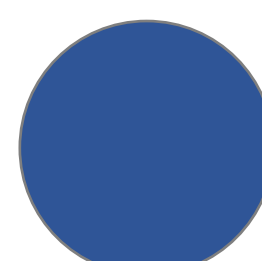

4

4. If you want to move to the centre, your opponent's piece must be beside one of yours on the outside star point.
5. Each player takes a turn trying to block in the other player so he can't move.
5. The blue player cannot win in the first move.
6. Pieces may only move one place; no jumping.
7. Play again and swap colours. Blue always goes first.
8. The outside places are kawai or kawai. The centre place is putahi
9. There are videos to watch on YouTube
