

Vegetable Patch 2

What you will need (per pair)

- A copy of this sheet and the Community Garden Board sheet.
Please note: these are A3 documents and need to be printed at 100%
- Numicon 4-, 5- and 6-shapes or Printable Numicon Shapes, printed and cut out

What to do

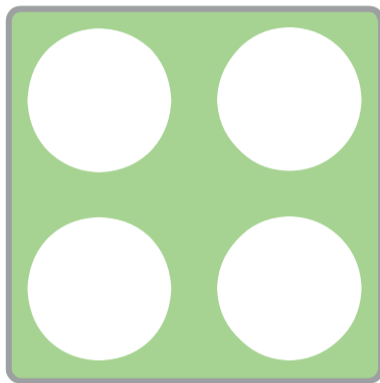

- In this activity you are a gardener. You decide to plant some delicious vegetables in the community garden by the river. The board sheet is your community garden.
- You have carrots, tomatoes and broccoli to plant in the empty space on the board.
- Can you fill the garden with **two** different vegetables? You must use the same number of each type of vegetable. You can choose carrots, tomatoes or broccoli, using the Numicon Shapes shown.

Extensions and questions

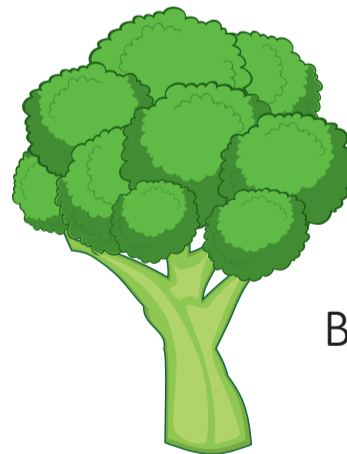

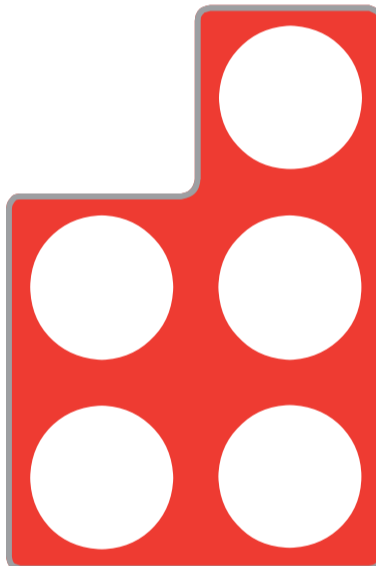

- What if you had to use all three vegetables but still use the same number of each; how many ways can you find to do this?
- Can you explain what you have discovered, using your knowledge of times tables?
