

Numicon Bingo!

A number game

What you will need

- Enough bingo playing cards printed out for the number of children in your group
- A bag of 1-10 shapes for each child
- Your teacher bingo card **fig 3**

How to play

- Hand each child a bingo card **fig 1** and a bag of 1-10 shapes.
- Call out the numbers between 1 and 10 or pick shapes from a feely bag.
- Ask the children to place the corresponding Numicon shape over the number you call out, if they have it on their sheet.
- The first child/children to cover all the correct shapes on their sheet and call out 'bingo' wins the game.

Extension and questions

Give each child a six shape and 6 coloured pegs along with their bingo card, or, use whichever shape corresponds to the number of 'rounds' you intent to play) Ask the children to keep a tally each time they win a round. Placing a peg into the six shape each time they win **fig 2** This will give you the opportunity to ask questions, such as:

- How many games did you win?
- How many more games did you need to win to get to six?
