

Welcome to another edition of our termly newsletter. In this newsletter we have:

Numicon specials and new prices coming 1 January

Oxford University Press increased their prices this year. From 1 January, you will notice a price increase in a number of products. We are happy for you to place your order now and pay in January 2017. Let us know when placing your order.

Want to know more about the Numicon approach?

New Firm Foundations

Learning through play is the key feature of this new publication. Teachers are loving it! They are enjoying conversations with children in play and workshop situations, even talking about numbers higher than 20! Early childhood teachers and New Entrant teachers are using New FF.

PLD for Term 4 and 2017

Term 4 courses: [Auckland](#)

I am already getting booked by schools for Numicon courses for 2017. Don't miss out! Another newsletter in November will advertise the courses in 2017. You are welcome to request a course for your area.

Planning is in progress for courses.

Exciting data and reports coming in!

Teachers in many schools are finding their Year 1 students will have achieved NZC Level 1 (NF Stage 4) by the end of the year. They have revived their joy of teaching maths again!

Schools introducing Numicon for the first time are finding that when they begin Numicon with their Year 2 - 8's they find so many gaps in the children's knowledge and lack of confidence. Progress initially is very slow, but builds during the year to be at NZC levels and above National Standards.

Please share your story. [Download this template to help you.](#) [Here's a sample](#)

New resources on the website under Resources. [Take a look!](#)

Festive activities are found on the [FF BB Numicon 1 link - Making Christmas trees, explore Santa's sack...](#)

Change of address - remember to update us! It would be sad to say goodbye, especially if we lose contact with your school.

[Follow us on Twitter! numiconnz](#) You can link to teachers throughout the world with brief snapshots of what their children are learning

Find numicon on [Pinterest](#)
