Patterns on a 100 square

Examples of patterns in the timestables shown on a 100 square with questions prompts.

Important note about printing pdfs

Most printers default to print pdf files within the printable area of the page. This effectively means that pdf files are automatically scaled down to fit the page. In order to print our display resources at the correct size you will need to choose 'page setup' and select the appropriate page scaling options (either 'None' or '100%' depending on the application and printer you are using).

**What patterns
can you see on
the 100 squares?**

**Can you use blank
sheets to create
patterns of times tables
for numbers above 10?**
